WELCOME TO ICAR-Central Plantation Crops Research Institute!

Be a partner & share
the experience of over **105 years!!**

We provide technologies for

▶ **Virgin Coconut Oil**

(Fresh coconut milk is subjected to hot processing or fermentation)

▶ **Low-Fat Desiccated Coconut (LFDC)**

(Dried kernel grating after removing milk)

▶ **Kalpa Krunch**

(An extruded product using kernel gratings after removing milk)

▶ **Coconut chips**

(Thinly sliced kernel subjected to osmotic dehydration and drying)

▶ **Foam mat dried coconut milk powder**

(Low cost technology)

▶ **Kheer Mix with coconut milk powder**

KALPARASA® & PALM SUGAR

Coconut sugar is produced from unfermented coconut inflorescence sap, christened as Kalparasa. The Institute had developed sap collection procedures and protocol for production of sugar

Kalpa Bar - Dark chocolate (coconut sugar based)

▶ Kalpa Drinking Chocolate ▶ Kalparasa® Based Sweets

▶ Vegan Frozen Delicacy

Made out of coconut milk, coconut sugar, tender coconut water and pulp

Kalpa Ice cream

Kalpa Sugar

Kalpa Drinking
Chocolate

Kalpa Bar Dark
Chocolate

Kalpa Sweets

COCONUT WATER BASED PRODUCTS

- ▶ Coconut natural vinegar ▶ Coconut water jelly
- ▶ Mature coconut water squash ▶ Flavored coconut water

FOR THE TENDER COCONUT SECTOR

- ▶ Tender coconut punch and cutter
- ▶ Handy Gadgets for serving tender coconut

Snow ball tender nut

- ▶ Innovative premium product to impress someone

Trimmed tender coconut

- ▶ Trimming machine and protocol for preservation

GADGETS AND MACHINERY

- ▶ Coconut desheller for separating copra
- ▶ Testa remover
- ▶ Slicer (for making coconut chips – can also be used with tapioca, banana, potato)
- ▶ Coconut milk expeller
- ▶ VCO cooker
- ▶ Pulveriser
- ▶ Coconut chips dryer
- ▶ Copra dryer (Capacity: 500 or 1000 nuts per day)
- ▶ Safety device for coconut climbing machine

ORGANIC FARMING INPUTS

Kera Probio®

Plant growth promoting Rhizobacteria for coconut (seedling stage)

Cocoa Probio® PGPR for cocoa

KerAM®

Kalpa Organic Gold

Vermicomposting from coconut leaves

Kalpa Soil Care

Urea free composting of coir pith

Tender coconut husk composting

Coconut Biochar

Bio-control agents against pests

Metarhizium anisopliae and Green muscardine fungus Baculovirus (Against Rhinoceros beetle)

Trichoderma cake and talc formulations

Goniozusnepantidis and Braconsbrevicornis

Parasitoids against leaf eating caterpillar

OTHER FARMING INPUTS

Nano matrix for increasing efficiency and effectiveness of pheromone against Rhinoceros and Red Palm Weevil

KALPA VARDHINI & KALPA POSHAK

Customized fertilizer mixture (including micro nutrient) for adult and juvenile coconut palms

TECHNOLOGIES FOR PRODUCTION OF ELITE PLANTING MATERIAL

- ▶ Licensing of released varieties and hybrids of coconut, arecanut and cocoa
- ▶ Coconut embryoculture technique
- ▶ Coconut pollen cryopreservation
- ▶ Arecanut tissue culture

Facilities for In-house Incubation at Kalpa ABI, ICAR-CPCRI

- ▶ Virgin Coconut Oil
- ▶ Coconut Chips
- ▶ Desiccated Coconut
- ▶ Vegan Coconut Frozen Delicacy
- ▶ Bean to Bar Dark Chocolate
- ▶ Activated Coconut Shell Carbon
